## Profile

I'm a young passionate Web Development enthusiast that loves to code more than anything.

## Education

**2016 – present**
Academy+Plus

Here I learned how to work under pressure, respect deadlines, learn new technologies and adapt to a new environment quickly.

**2015 – present**
Liceul Teoretic "Onisifor Ghibu" Mathematics and Computer Science

## Experience

**2017 - present**
JavaScript Developer at Lola Tech

**2016**
Freelance Web Development project for TothEquip

## Technical skills

Advanced JavaScrip (ReactJS, React Native, NextJS, NodeJS, ExpressJS, GraphQL, ElectronJS), Unit Testing, Basic GoLang, Python, C, UNIX, Basic Deep Learning (PyTorch, Keras), Git version control system, Sketch app, Photoshop.

## Personal Projects

- Lollio (https://github.com/cserdean/lollio): a universal React app built with Next.js and GraphQL for event planning. Keep in mind this is a project I'm still working on.
- Gem (https://github.com/cserdean/Gem): a universal React app built with Next.js and GraphQL for keeping your online finds.

- Contrast Neural Net (https://github.com/c0z0/contrast_neural_net) : a simple Neural Network for determining contrast. Built with Keras.

## Other Experience and knowledge

Advanced English and Romanian skills and lots of leadership skills (being long time member of the Romanian Scouts).
